

THE CART LOCKER®

**MISSION**

**TO REVOLUTIONIZE  
GOLF STORAGE **WORLDWIDE.****

Seamlessly blending organization with innovation  
to craft a premium electric trolley storage solution.

# IRELAND HAS ONE OF THE MOST ESTABLISHED ELECTRIC TROLLEY CULTURES IN THE WORLD...

**Ireland (North & South) is currently running at 83% usage of electric golf trolleys among registered golfers on the island and Northern Ireland boasts the highest usage, followed by the Republic of Ireland and then the UK.**

## Rise of Smart Trolleys

One of the most prominent trends in the electric trolley market is the integration of smart and connected technologies.

Electric trolleys now provide valuable insight into a player's performance, and as technology advances, we can expect further innovations, such as AI-driven coaching tips and real-time weather updates.

## Health and Fitness Integration

Electric trolleys, in particular, are being designed with features that promote health and fitness – integrating fitness trackers, step counters, heart rate monitors, and even calculating calories burned.

## Environmental Sustainability

Environmental sustainability is a natural extension of Ireland's strong walking culture. Electric trolleys, powered by rechargeable batteries, offer an efficient and low-impact way to enjoy the game—supporting the shift toward more sustainable practices while preserving the tradition of walking the course.

## Electric Trolley Culture is King

Electric Trolley Culture isn't a "new trend" in Ireland—it's a mature, deeply embedded behaviour. With over 80% of Irish golf courses operating electric trolley rental fleets and the modern style of electric trolleys being adopted for well over 10 years now... It's safe to say Ireland has a really established culture around these devices that isn't going anywhere.

# INTRODUCING THE **NEW STANDARD** FOR ELECTRIC TROLLEY STORAGE AND CHARGING

- ◇ Powder-Coated Stainless Steel
- ◇ Individually Vented Lockers
- ◇ Compatible with All Major Electric Trolley Brands
- ◇ Slanted Roof for Weather Proofing
- ◇ Adjustable Feet
- ◇ Modular Design

 THE CART LOCKER®

# CLEAR THE CHAOS

Nearly every private golf club has an electric trolley storage issue. Either they do not offer storage services, frustrating members, or they have a haphazard solution for both personal and rental trolleys with chords tangled and trolleys taking up valuable floor space with multiple batteries charging indoors, creating a monumental fire hazard. The Cart Locker provides a clean and organized look while reducing fire risk and potential liability costs.

# GENERATE REVENUE (ROI)

By providing personal electric trolley lockers, private clubs can charge members for storage, allowing the club to recoup their initial investment within 3–5 years while creating an ongoing revenue stream for years to come. In addition, private clubs will naturally sell more electric trolleys through the pro shop as a result of adopting the locker system, therefore generating additional profit from both trolley sales and locker rental revenue.

# CREATE EFFICIENCIES

With The Cart Locker, each member can access their locker independently, without the need for a concierge, allowing them to store, charge, and retrieve their electric trolley or even rental trolleys at their convenience. Moving electric trolley storage from indoors to outdoors also frees up valuable space within the club—an added benefit.

# THE ELEVATED MEMBER EXPERIENCE

- A personal, private, and secure locker gives members a place to store personal belongings while on the course and charge devices such as a laptop or cellphone prior to a business meeting afterward. Additionally, being able to charge a speaker or GOLF GPS Device while also charging an electric trolley overnight makes THE CART LOCKER an exceptional choice for these lifestyle conveniences—and members truly love this solution.
- Since a wide variety of electric trolley brands fit The Cart Locker, this provides members with the flexibility to choose a model that meets their needs and preferences, while accommodating a range of price points—keeping all brands relevant as The Cart Locker expands across Ireland and globally.

 THE CART LOCKER®

# THE STREAMLINED TROLLEY RENTAL SOLUTION

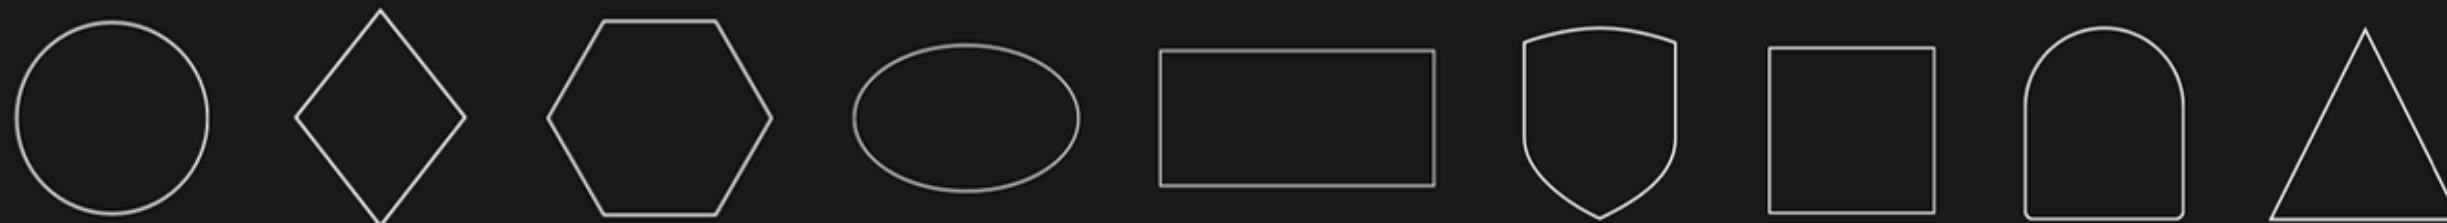

The Cart Locker offers a sophisticated solution for streamlining electric trolley rental services across Irish golf clubs. Relocating trolley storage from indoor spaces to a secure outdoor system increases the club's capacity for trolleys while reducing fire risk. At the same time, it ensures fleets remain fully charged and ready for play, while providing convenient, self-serve access for members and guests—simplifying operations and enabling both daily and seasonal rental programs.

# OVER 175+ CUSTOM COLORS AVAILABLE

CANYON MEADOWS

"We encountered a challenge due to the overwhelming demand for electric trolley storage, and our existing space couldn't meet the needs of all our valued members. The introduction of the Cart Locker proved to be the ideal solution. The streamlined efficiency of the Cart Locker system empowered us to fully maximize our storage capacity while elevating the overall experience for our members."

Pat Wilmot  
Head Golf Professional  
**Earl Grey Golf Club**

With the growing demand for Member Trolley Storage at Priddis Greens, we made the decision to add to our current members' trolley storage options. We reached out to the team at The Cart Locker, and together we came up with a solution to add 36 units. The response from our membership was extremely positive.

It provided our members with a convenient, weather-tight, secure solution to store their trolley and charge their battery. We have since added another 36 units, and our demand for trolley storage continues to grow.

**The Cart Locker is the **BEST** solution on the market in my opinion!**

# SOLAR POWERED OPTIONS

Eliminates the need for traditional power hookups, allowing clubs to install storage lockers anywhere on their property without trenching, wiring, or tying into existing infrastructure.

 THE CART LOCKER®

## PROFESSIONAL. PROVEN. PREFERRED

This year's show was another great time, and we're deeply grateful for the opportunity to continue connecting with so many clubs, professionals, and industry partners.

After our third year at the show, it was especially exciting to see more and more courses eager to bring The Cart Locker on board and solve ongoing challenges as the electric trolley industry continues to grow! We're proud to be part of the future of golf club innovation.

THE CART LOCKER®

## MEMBER RESPONSE

Members have reported a significant improvement in their experience with the introduction of The Cart Locker. They no longer need to transport heavy trolleys to and from home, and can enjoy the peace of mind that their equipment is secure, well-maintained, and fully charged for their next round.

In addition, having a personal locker on site that is easily accessible and can store belongings plus charge devices—such as phones, speakers, golf GPS devices, laptops, and more—provides a truly elevated, top-tier member experience.
